6. Why are you studying Theology?
 - I decided to study theology after receiving God's call in March of 2009 while I was mourning of my father's death. Studying theology was never my plan; rather, I was determined to become a medical doctor, but I responded the Lord's call. However, in order to pursue vocational ministry, I had to finish my university studies. As a result, I changed my major to Church Music because it would help me in my future ministry. After I graduated from university, I served as a mission coordinator the Fellowship of Naga Baptist Association, which basically supports Naga people living in remote areas, particularly in Myanmar. During these two years, I had a chance to visit those few places where God opened my eyes in a clearer way and my heart to serve Him.
7. Why did you choose this school?
 - There are two reasons that I chose this university; first, my uncle, who was alumni of this school, recommended ACTS as the right place to be equipped. Second, I am interested to learn the context of Korean churches, particularly in Mission.
8. What is your plan after graduation?
 - I had been praying for further studies in Th.M. + Ph.D. (Old Testament) God answered my prayer and ACTS accepted me. Currently, I want to focus on my studies and see what God's plans for me are. However, I am interested in teaching. Thus, God's willing, in the future I will be fully involved in the teaching ministry.

Yours sincerely,

Chepuzo Kepfoh
